Introduction

1

This publication presents statistics on labour market policy (LMP) interventions implemented by EU Member States and Norway in 2015, together with time-series for key variables covering the period 2002-2015.

The paper is divided in four chapters. Chapter 1 is introductory. Chapters 2 and 3 deal respectively with data on expenditure and participants in LMP interventions and include tables of indicators used for monitoring the EU Employment Guidelines. Chapter 4 includes tables of external and reference data that help to put the LMP data into context.

All data and other information in this publication are presented in accordance with the LMP Methodology 2013¹ (see point 1.3 below).

1.1 Scope of LMP statistics and key concepts

LMP statistics cover labour market interventions which are public interventions in the labour market aimed at reaching its efficient functioning and correcting disequilibria. LMP interventions are distinguished from other general employment policy interventions in that they act selectively to favour particular groups in the labour market. The primary target groups in most countries are those people who are registered as unemployed by national Public Employment Services (PES) or who are currently employed but at risk of involuntary job loss due to difficult economic circumstances for their employer. However, policy objectives at European and national levels are increasingly focused not only on these groups but on a wider range of people facing disadvantages and barriers that may prevent them from joining or re-joining the labour force – for example, women re-entering work after a family break, young people looking for their first job, older workers and disabled workers. Therefore, people currently considered as inactive but who would like to enter the labour market are also treated as an important LMP target group.

National interventions are classified according to a single scheme in order to ensure that the information on LMP interventions undertaken across Europe is presented in a way that is as consistent and comparable as possible. LMP interventions are classified by type of action, which refers to the way in which an intervention acts to achieve its objectives. The classification identifies three broad types of intervention – services, measures and supports – which are

subdivided into 8 categories². LMP services cover all services and activities of the Public Employment Services (PES) together with any other publicly funded services for jobseekers. Services include the provision of information and guidance about jobs, training and other opportunities that are available and advice on how to get a job (e.g. assistance with preparing CVs, interview techniques, etc.). The classification scheme includes one category of LMP services:

- Labour market services (cat. 1)

LMP measures cover interventions that aim to provide people with new skills or experience of work in order to improve their employability or that encourage employers to create new jobs and take on unemployed people and other target groups. Measures include various forms of intervention that "activate" the unemployed and other groups by obliging them to participate in some form of activity in addition to basic job search, with the aim of improving their chances of finding regular employment afterwards. They are mostly short-term and temporary actions but on-going support for jobs that would otherwise not be sustained in the regular labour market is also covered. The classification scheme identifies five categories of LMP measures²:

- Training (cat. 2)
- Employment incentives (cat. 4)
- Supported employment and rehabilitation (cat. 5)
- Direct job creation (cat. 6)
- Start-up incentives (cat. 7)

LMP supports cover financial assistance that aims to compensate individuals for loss of wage or salary and to support them during job-search (i.e. mostly unemployment benefits) or which facilitates early retirement for labour market reasons. The classification scheme includes two categories of LMP supports:

- Out-of-work income maintenance and support (cat. 8)
- Early retirement (cat. 9)

For each intervention, data on expenditure and participants are collected. Expenditure is broken down according to a two tier scheme, which distinguishes firstly the direct recipient of the transfers and then the type of expenditure involved. The numbers of participants in LMP interventions are recorded using three observations: stock,

entrants and exits. Stock data (annual average) refer to the average number of persons participating in an intervention at a given moment during the year and are usually calculated from the administrative data as an average of the stock at the end of each month. The annual average stock can also be interpreted as the number of person-years of participation in an intervention. Flow data describe the number of people joining (entrants) or leaving an intervention (exits) during the year. Each participation is counted so that a given individual may be counted more than once in both entrants and exits data.

1.2 EU employment policy and LMP indicators

LMP statistics are one of the key data sources used for monitoring the EU Employment Guidelines through the Europe 2020 Joint Assessment Framework (JAF)³. The JAF is an indicator-based assessment system developed and used by the European Commission (Directorate General for Employment, Social Affairs and Inclusion) and the Employment Committee (EMCO). Organised in 12 Policy areas (PA), the JAF includes a series of indicators used to monitor progress towards EU headline targets and related national targets in relation to the implementation of the Employment Guidelines. In each policy area, indicators are categorised as overall indicators, sub-indicators, and context indicators. The logic of the JAF is that, in principle, under each policy area the sub- and context indicators should reflect factors that explain and drive the outcome of the overall indicator.

Six indicators related to LMP fall within policy area 3 - Active labour market policies (PA3):

- PA3.S1 (sub-indicator) Expenditure on ALMP per person wanting to work (see Table 2.1.4): Expenditure on LMP category 1.1.2 (Individual case management)⁴ and LMP categories 2-7 divided by the number of persons wanting to work (ILO unemployed plus labour reserve).

- PA3.S2 (sub-indicator) Expenditure on ALMP as a % GDP (see Table 2.1.3): Expenditure on LMP category 1.1.2 (Individual case management)⁴ and LMP categories 2-7 as a percentage of GDP.

- PA3.S3 (sub-indicator) Activation (see Tables 3.3.1 – 3.3.3): Stock of participants in regular activation measures (LMP categories 2-7) divided by the number of persons

wanting to work (ILO unemployed plus labour reserve).

- PA3.C1 (context indicator) Activation of registered unemployed (see Tables 3.3.4 - 3.3.6): Stock of participants in regular activation measures (LMP categories 2-7) that were previously registered unemployed divided by the stock of registered unemployed plus the stock of participants in regular activation measures that were previously registered unemployed and whose unemployment spell is broken by participation in a regular activation measure.

- PA3.C4 (context indicator) Activation of long-term (registered) unemployed (see Tables 3.3.7 - 3.3.9): Stock of participants in regular activation measures (LMP categories 2-7) that were previously long-term registered unemployed divided by the stock of long-term registered unemployed plus the stock of participants in regular activation measures that were previously long-term registered unemployed and whose unemployment spell is broken by participation in a regular activation measure (long-term unemployed = 12+ months).

- PA3.C6 (context indicator) Timely activation (see Tables 3.3.10 - 3.3.12): The proportion of entrants in regular activation measures (LMP categories 2-7) or assisted activation programmes (LMP sub-category 1.1.2) taken up by persons not yet long-term unemployed (Target value 100% = full compliance): $(A-B)/A$ % where A = Total entrants, B = Long-term unemployed entrants (12+ months).

Two further indicators related to LMP fall within policy area 4 - Adequate and employment oriented social security systems (PA4):

- PA4.1.S1 (sub-indicator) Expenditure on LMP supports per person wanting to work (see Table 2.1.4): Expenditure on LMP category 8 (Out of work income maintenance and support) divided by the number of persons wanting to work (ILO unemployed plus labour reserve).

- PA4.1.S2 (sub-indicator) Expenditure on LMP supports as % of GDP (see Table 2.1.3): Expenditure on LMP category 8 (Out of work income maintenance and support) as a percentage of GDP.

1.3 Guiding remarks on data

Source of data and timeliness

Unless otherwise specified, all data presented in this publication were extracted from the LMP database⁵ on 11th September 2017. Data are collected annually from administrative sources in each country. The publication includes tables showing the original source of data on expenditure and participants for each intervention (see Tables 5.5 and 5.6).

Source codes in the form of internet hyperlinks are included after each table and figure in this publication to help readers access easily the most recent data available from the Eurostat website.

LMP Methodology

The LMP data collection is underpinned by a comprehensive methodology. It defines the scope of the data collection, the statistical unit and coverage, describes the classification system, and gives precise guidelines on the data to be provided. Users of LMP data are recommended to refer to this methodology in order to facilitate interpretation of the data provided in this publication. The methodology is available from the Eurostat website⁶. This publication includes the questionnaire used in the LMP data collections (see Table 5.1), the classification scheme by type of action (see Table 5.2) and breakdown by type of expenditure (see Table 5.3).

The LMP methodology is also used by the OECD. Data on LMP expenditure and participants published by the OECD in "Employment Outlook" for the EU countries and Norway are collected and carefully validated annually by the European Commission's Directorate-General for Employment, Social affairs and Inclusion before being sent, together with all related metadata, to the OECD. The only divergence between the two databases is in category 1 (Labour market services), where OECD prefers to maintain a different coverage and has, for some countries, either supplemented or excluded parts of the data.

Qualitative data

In addition to the quantitative data on expenditure and participants presented here, the LMP database includes valuable qualitative information describing each intervention, how it works, the main target groups, etc.

These descriptions help to put the quantitative data into context and can be extremely useful for researchers. These qualitative data are made available in an online database on the DG EMPL website⁶ and are also compiled into a series of "Labour market policy statistics: Qualitative Reports" produced as separate volumes for each country/year⁷. This publication includes a table expanding on any abbreviations used in intervention names and explanatory notes to the quantitative data reported by each country (see Table 5.4).

Coverage

In accordance with the LMP methodology, the data presented in this publication should cover all LMP interventions in each country including those of autonomous regions, which may be significant. There are, however, some known exceptions:

Germany: The Länder (regional authorities) carry out some important LMP activities independently of the federal actions but insufficient data are available to report on these in any detail. However, many of the activities of the Länder are supported by the ESF (European Social Fund) and the LMP data for 2000-2006 include a single entry (DE-84) covering this expenditure and the related participants. Unfortunately changes to reporting procedures for the 2007-2013 ESF funding period mean that the data on ESF expenditure relevant to LMP in Germany are no longer available. The data for Germany for 2007-2014 are therefore missing the expenditure and participants related to LMP activities of the Länder. In 2006 the ESF support for these actions accounted for 7.4% of the expenditure on LMP measures (categories 2-7) in Germany and 29.6% of the participants.

Spain: Data for reference years prior to 2013 do not provide complete coverage of the activities of municipalities and do not cover all of the autonomous regions.

Malta: Data for reference year 2015 were delivered late and were not fully validated at the time of publication.

United Kingdom: Data for reference years 2011 - 2015 were not provided.

Aggregates of expenditure and participants

Aggregates of expenditure data are only provided when values are available (or known to be not significant) for all constituent items.

However, participant data are generally less complete and in order to increase the number of participant aggregates that can be disseminated, the value of a participant aggregate is shown provided that constituent data are complete for at least 80% of the associated expenditure (completion indicator $\geq 80\%$). All aggregates of participants based on incomplete data are flagged as "u" to alert users that the data are not fully reliable (i.e. may be understated by up to 20%) and this flag always takes precedence over any other flag that might be applicable.

EU totals

EU totals are completed only when data are available for all countries or when Cyprus, Luxembourg and Malta are the only countries with incomplete data. If data for a country is missing for one year then EU totals may be completed using data from the previous year for that country.

The following aggregations should not be made for methodological reasons:

- Participants in category 8 should never be added to those in categories 2-7.
- Participants in category 1 should never be added with any other category.

Double counting may occur legitimately when a person participates in more than one intervention at the same time or is counted in two components of a mixed intervention – for example when training allowances are paid independently from the provision of training services. All known cases of double counting are taken into account by appropriate adjustments, which are shown in the detailed tables of participant data (section 3.4).

Flags

LMP data are flagged at the intervention level. The following flags may be applied:

- b Break in series
- e Estimated data
- n Not significant

- p Provisional data
- u Unreliable data (see section on aggregates of participants above)

When data are aggregated (e.g. to category totals or to EU aggregates), the various constituents of the aggregate may have different flags but only one can be applied to the final value. The following rules are applied to determine the flag (if any) to be applied to aggregates. Firstly, the flag most applicable to an aggregate is considered to be the one that applies (at detailed level) to the highest share of the aggregate value. Secondly, a flag is only applied to an aggregate if it affects more than 10% of the total value.

Intervention names

The names of all LMP interventions are shown here in English only. However, for research purposes it may also be helpful to know the name of the intervention in the national language. An inventory of intervention names in both English and national language is included in the LMP Qualitative Reports which are published separately for each country.

LMP expenditure at constant price levels - deflator

The price index for household and NPISH (non-profit institutions serving households) final consumption (2005=100) was used as deflator (see table 4.1.2, source: National Accounts).

Persons wanting to work – definition

Persons wanting to work are defined as the unemployed plus the labour reserve. The unemployed according to the ILO definition are persons without work, currently available for work and actively seeking work. The labour reserve covers inactive persons who want to work but are either not actively seeking work or are not immediately available for work, i.e. it is a subset of all inactive persons (persons neither employed nor unemployed). Data are taken from the EU Labour Force Survey (EU LFS)⁸.

Footnotes:

1. <http://ec.europa.eu/eurostat/documents/3859598/5935673/KS-GQ-13-002-EN.PDF>
2. Note that since the 2013 LMP methodology was introduced category 3 has been merged into category 4 (as sub-category 4.3) and is no longer used as a top-level category.
3. <http://ec.europa.eu/social/BlobServlet?docId=6440&langId=en>
4. At the present time data for LMP category 1 are not fully broken down by sub-category for all countries. Therefore the indicator can only be calculated for categories 2-7.

Notes

- BE-1 includes expenditure of BE-78. The data for Forem (Wallonia) is not available; it is included under BE-101 and BE-30.
- Includes ESF contribution.
- BE-54 includes expenditure of BE-65.
- The majority of participants receive unemployment benefits which are reported under category 8.
- BE-77 includes expenditure of BE-159.
- Expenditure of BE-78 is included in BE-1.
- Beneficiaries of this regional training programme continue to receive unemployment benefits which are reported under BE-43 (category 2).
- Expenditure of BE-130 (which does not appear in the database anymore) is included under BE-42.
- These are unemployment benefits paid to beneficiaries of regional training programmes (BE-40, 41, 42 and 44).
- Some participants may continue to receive unemployment benefits which are reported under category 8.
- Expenditure was significantly reduced in 2015 due to staff shortages as well as changes in the legislation.
- Participants may continue to receive a monthly integration allowance which is not included here but in BE-89.
- Data refer to 2014: in the context of the 6th State Reform, the competence related to the allocation of new credits belongs to the regions since July 2014. Following this re-organisation, data related to this intervention cannot be distinguished anymore.

Notes

- The figures on expenditures includes the budget of the actual PES centres which are under the control of the Danish local authorities.
- The financing is (partly) covered by the State/Central government accounts
- Includes training fees and the wages of both workers involved in the job rotation.
- The breakdown of expenditure by type of benefit (full-time, part-time or partial) is not known so all expenditure is shown as full-time benefits, which are the most important.
- Data cover only recipients of early retirement pay coming directly from unemployment, which corresponds to around 21% of all recipients.

Notes

- 1 Expenditure is estimated on the basis of the CES management's assessment of the person-hours needed to perform the service relative to the total person-hours of CES staff. The expenditure is reported on a cash basis.
- 2 Measure implemented but there was no expenditure.
- 3 Expenditure estimated on the basis of average expenditure for measures 60 and 12 and data on participant stock. The expenditure is reported on a cash basis.
- 4 The expenditure is reported on a cash basis.
- 5 The expenditure is estimated using average amounts in other training measures.
- 6 Expenditure estimated using the average costs of training.
- 7 From July 2013 expenditure includes travel expenses of participants. The expenditure is reported on a cash basis.
- 8 Includes ESF contribution.
- 9 The expenditure is reported on a cash basis.
- 10 As only total expenditure on relocation and travel expenses is available in accounting reports, an estimate is provided. The expenditure is reported on a cash basis.
- 11 The amount is estimated using the average gross wage.
- 12 The expenditure is estimated using average amounts in the previous year.
- 13 Travel expenses are included in cash payments to employers. The expenditure is reported on a cash basis.
- 14 Expenditures for the measure estimated using the number of participants and the accounting total for public works.
- 15 The expenditure is estimated using average amounts in the other public works measures.

Notes

- Includes ESF contribution.
- Budgeted expenditure for 2014-2015.
- Intervention not applied in 2015.
- Intervention coming to an end.
- Mixed measure in categories 4 and 7. The breakdown by component is not known so all expenditure and participants have been allocated to category 4, which is assumed to be the most important component.
- Periodic cash payments paid to participants in intervention IT-8 (category 8.2) are counted under interventions IT-81.
- Includes social contributions credited on behalf of beneficiaries.
- Intervention ended.
- Includes social contributions credited on behalf of beneficiaries. The expenditure refer to participants of previous year.

Flags: : Not available; :n Not significant; - Not applicable or real zero or zero by default; 0 or 0.00 Less than half of the unit used; e Estimated value; p Provisional data; b Break in series

Notes

- 1 Breakdown by type of expenditure is based on a survey covering about 40% of all municipalities in the Netherlands, representing 70% of the total expenditure.
- 2 From 2006 expenditure on the administration of the TW for WW-recipients is counted under expenditure for the administration of WW.
- 3 Unemployment benefits during participation in individual case-management and training have been estimated on the basis of the (estimated) number of participants and an average annual Abw/WWB-benefit per person.
- 4 Unemployment benefits during participation in individual case-management and training have been estimated on the basis of the (estimated) number of participants and an average annual WW-benefit per person.
- 5 Breakdown is unavailable so all expenditure is allocated to transfer to service providers.
- 6 Expenditure restricted to unemployed people already receiving unemployment benefits (NL-31 WW).

Flags: : Not available; :n Not significant; - Not applicable or real zero or zero by default; 0 or 0.00 Less than half of the unit used; e Estimated value; p Provisional data; b Break in series

Notes

- 1 Share of operational costs of the PES based on monitoring of staff time-use.
- 2 Expenditure of FI-56 (sub-category 1.1.1) includes expenditure which used to be reported under FI-51 (sub-category 1.2.2).
- 3 A large part of the expenditure is now included under FI-56 (sub-category 1.1.1).
- 4 Includes ESF contribution.
- 5 Expenditure includes only subsidies paid by the Ministry of Employment and the Economy to facilitate the recruitment of unemployed persons as apprentices.
- 6 Expenditure refers to persons on leave and includes both income support (80/70% of unemployment benefit entitlement) and training supplements where appropriate.
- 7 Data represent an estimate of public funding for sheltered workshops. Income from business activity, which accounts for more than half of revenue, is excluded.
- 8 Expenditure includes rehabilitation allowances and the costs of different rehabilitation activities.
- 9 Unemployment benefits paid to recipients participating in measures are not included here, they are reported under the appropriate measures (under categories 2-7).

Notes

- 1 Transfers to individuals (activity support) included in SE-81.
- 2 Cost of individual services included in SE-20.
- 3 The residual amount reported as transfers to service providers refer to payments to service companies to organise travel/accommodation.
- 4 The allocation of expenditure to components is partly based on estimates. Periodic cash payments for 1.1.2 (activity support) included in SE - 81. Cost of individual service for 1.1.2 included in expenditure of SE-20.
- 5 The residual amount reported as transfers to service providers refer to payment to external service providers e.g. Training.
- 6 Cost of individual service included in expenditure of SE-20.
- 7 Intervention started in Q4 2015.No expenditure during this period.
- 8 Periodic cash payments included in SE-80 and hence accounted for in SE-81.
- 9 Expenditure includes some payments for travelling to interviews, which are normally considered under category 1.
- 10 End of intervention during 2015.
- 11 Intervention started in Q4 2015.
- 12 Includes credited social contributions.

Notes

- 1 Stock: other one-off observation.
- 2 Stock: end-year figure.
- 3 Participants of BE-130 (which does not appear in the database anymore) are now included in BE-42.
- 4 All participants reported in BE-43 are double-counted with BE-40, BE-41, BE-42 and BE-44.
- 5 BE-115 includes stocks of BE-105 and BE-113.
- 6 Data refer to 2014: in the context of the 6th State Reform, the competence related to the allocation of new credits belongs to the regions since July 2014. Following this re-organisation, data related to this intervention cannot be distinguished anymore.

Notes

- 1 The breakdown of recipients by type of benefit (full-time, part-time or partial) is not known so all are allocated to full-time benefits, which are the most important.
- 2 Data cover only recipients of early retirement pay coming directly from unemployment, which corresponds to around 40% of all recipients.

Notes

- 1 ES-18 includes participants of ES-19.
- 2 ES-42 includes participants of ES-52.
- 3 ES-21 includes participants of ES-24 and ES-45.
- 4 Includes participants of ES-8, ES-35 and ES-72 who continue to receive unemployment benefits.
- 5 Data on the Autonomous Communities are not available but they are estimated to represent a small share of the total.

Notes

- 1 Participants of FR-95, 134 and 136 are also reported under FR-116 (R.2).
- 2 Stock: end-year figure.
- 3 The intervention is coming to an end.
- 4 Participants of FR-133 are only reported under FR-116 (R.2).
- 5 Beneficiaries of training allowances are already counted in interventions FR-85 and FR-118.
- 6 Beneficiaries of training allowances are already counted in other training interventions (FR-70, FR-71 and FR-85).
- 7 Participants of FR-106 are included in FR-63.
- 8 Stock: average of two year-end figures.
- 9 All beneficiaries are already counted in other training measures (FR-70 and FR-71).
- 10 Double counting with FR-70, FR-71 and FR-104.
- 11 Participants of FR-11 are included in FR-118.
- 12 Some participants of FR-104 are double counted with those reported in FR-118.
- 13 Stock: start-year figure.
- 14 Data cover only apprenticeship contracts concluded with low-qualified youth (56.4% of all contracts) for which employers receive recruitment incentives.
- 15 Adjustment for double-counting: FR-63, FR-104, FR-106 and FR-107.
- 16 Most participants are already included under other interventions in categories 4, 6, 7 or 8.
- 17 Participant data only refer to young people who are the main target of this intervention (older people are not included here).
- 18 Double-counting with FR-38.
- 19 All participants in FR-121 and 84% of participants in FR-122 are already reported in FR-38.

Flags: : Not available; : n Not significant; - Not applicable or real zero or zero by default; 0 or 0.00 Less than half of the unit used; e Estimated value; u Unreliable or uncertain data: participant data complete for interventions covering >=80% but <100% of expenditure; p Provisional data; b Break in series

Notes

1 Mixed measure (categories 2 and 4) - it is not possible to separate the data so all participants are allocated to training, which is the most important component.

2 Stock: start-year figure. Entrants: total beneficiaries (new starts plus end-year stock).

Notes

- 1 Data includes distinct activities: placement and technical supports. In placement, the unemployed become employed, In technical supports the status does not change.
- 2 All participants in components 2 are participants in component 4 too. Participants in component 4.1.1 are not included in total in order to avoid double counting.
- 3 Partial data. The missing figures are relevant (for instance, in 2014, were 38% of entrants and 17% of exits).
- 4 Detail breakdown not available. Entrants: total beneficiaries (new starts plus end-year stock).
- 5 Not applied in 2015.
- 6 Partial data: the missing figures are relevant (for instance, in 2014, were 58% of entrants and 66% of exits).
- 7 Data on stock not available.
- 8 Breakdown of participants by component is not available; All participants are recorded in category 4, which is the most important.
- 9 A small number of participants cannot be accurately allocated between interventions PT-29, 31 and 37. Participants by intervention may therefore be slightly under or over-stated but the total for the three is correct.
- 10 The intervention is coming to an end.
- 11 Data do not include 4127 beneficiaries because breakdown is not available.
- 12 Data on exits are provisional for 3 years because participation can be suspended during the first 3 years after entrance.
- 13 Stock = total beneficiaries in the year.

HOW TO OBTAIN EU PUBLICATIONS

Free publications:

- one copy:
via EU Bookshop (<http://bookshop.europa.eu>);
- more than one copy or posters/maps:
from the European Union's representations (http://ec.europa.eu/represent_en.htm);
from the delegations in non-EU countries
(http://eeas.europa.eu/delegations/index_en.htm);
by contacting the Europe Direct service (http://europa.eu/eurodirect/index_en.htm)
or calling 00 800 6 7 8 9 10 11 (freephone number from anywhere in the EU) (*).

(*) The information given is free, as are most calls (though some operators, phone boxes or hotels may charge you).

Priced publications:

- via EU Bookshop (<http://bookshop.europa.eu>).

Priced subscriptions:

- via one of the sales agents of the Publications Office of the European Union
(http://publications.europa.eu/others/agents/index_en.htm).
